

BEHAVIOUR & WELFARE:

We expect children at Belvedere to behave in a considerate and caring way towards each other, towards the School Community as a whole and towards all aspects of the School and local environment. We have a School policy of promoting positive behavior and developing self esteem.

To help children achieve this, we have some golden rules –

- i. We are kind to each other
- ii. We listen carefully
- iii. We look after things
- iv. We always give our best
- v. We care for others

At Belvedere, we have a number of rewards and incentives, which the staff members are encouraged to use to promote appropriate goods behavior.

Where a child's behavior goes beyond normal range then an individual approach is needed, as part of our policy of working together with parents.

Class teachers will contact parents if they are concerned about the child's attitude or behavior. A team of counselors will help the Child

INCLUSION OF STUDENTS WITH SPECIAL NEEDS

We have high expectations of all our children and they are expected to achieve their full potential. We actively engage in strategies to overcome potential barriers to learning and assessment.

Our inclusion policy involves the early identification and minimizing of these barriers to learning that may be experienced by any pupil.

The progress of each child is monitored carefully, in full consultation with parents. This may involve, if necessary, further professional advice from outside school.
